

Mrs. Ada E. Earl, of Cincinnati, Ohio, told the woman that she had a husband who was a member of the Springfield Club and provided for many of her club's financial obligations.

NEW MEMBERS OF CONGRESS GIVE PROBLEM

Unless Number of Representatives Increased Under Census Some States Will Lose

COUNTRY'S GREAT GROWTH

Washington, July 28.—Unless the membership of the House is increased from 435 to at least 500 to meet the increased population shown by the 1920 census, 10 states will lose one or more representatives, according to Representative Siegel, of New York, chairman of the census committee which will frame the new Apportionment Bill. Those states are: Indiana, Iowa, and Missouri, which will lose two congressmen each, and Illinois, Kentucky, Maine, Maryland, Nebraska, Vermont and Virginia, which will lose one congressman each. Mr. Siegel explains that in the House membership is retained at its present figure, it will be necessary to increase the population basis in each congressional district beyond the 211,000 or major portion thereof now fixed. If this is done he says, the 10 states named will lose one or more of the present districts because their populations have not increased in proportion to those of other states. **Sixty-Five New Seats.** On the basis of the estimated population of 105,000,000 for the whole country in 1920, an increase of approximately 14,000,000 in 10 years, Mr. Siegel says 65 or 66 new seats in the House must be created if the 10 states are to retain their present numerical representation. While precedent warrants the increase, Mr. Siegel declares there is strong opposition to it on the part of some of the present representatives, while others favor reduction to as few as 300 members. Mr. Siegel expects the work of framing

CANDIDATE

REV. AARON J. WATKINS

Rev. Watkins was nominated for president by the Prohibition party.

ing the new apportionment bill in accord with the new population to begin with the reconvening of congress in December and he anticipated that the measure will be passed early in 1921.

Enlarged Every Decade. Every decade since 1790, with the single exception of 1840, the House membership has been enlarged to keep pace with the growing population. Now the House floor is crowded when all members are present; seats nearly fill the chamber, the old individual desks have been discarded and an increase in membership probably will have to be solved by narrowing the width of the seats.

Ten years ago the House membership was increased from 391 to 435 on the basis of a population of 91,972,260 and the only exception to such a procedure occurred in 1840 when 10 congressmen were knocked out by the apportionment, the membership being fixed at 232 after having been 242 for ten years.

The last apportionment kept intact the numerical strength of all state delegations besides providing for certain increases, but even then several congressional districts fell short of the maximum basis of 211,000 population.

The U. S. Federal Reserve banks have an unused lending power of some \$700,000,000.

TO CELEBRATE VICTORY JULY 31 AT PICNIC

Defeat of League Cause of Big Demonstration at Spiritwood Lake

NEW LAWS TO BE INITIATED

From many parts of the state have come suggestions and requests for the holding, at some central point, of a celebration over the results of the June primary election, in which so much was accomplished by the anti-socialist voters of the state.

At the suggestion of the committee in charge of the June campaign, O. J. Seiler of Jamestown, formerly named as chairman of the committee to organize the state, on what is known as the "Stutsman county plan" and later named as chairman of the state "Larger for Governor club," has issued the notice, and called for a victory celebration by the anti-socialists at Spiritwood Lake Saturday, July 31. The following is the call.

Victory Celebration While the recent primary election did not fully meet the wishes of the numerous friends of the anti-socialist leaders in North Dakota, yet the final results were a splendid victory when their enormous vote of two years ago is considered.

Fraser's majority for Governor was cut to 5300 from a previous majority of 17,000. Cahill, the red flag exponent, was defeated by Thomas Hall by 6000. Walker, Socialist, for Treasurer, was defeated by John Steen by 3000. Miss Johnson, Socialist, for superintendent, was defeated by Miss Nielson by 12,000.

The lower house of the Legislature carried an anti-Townley bill. The upper house of the Legislature will carry anti-Townley in November.

Stutsman, Barnes, Dickey, Foster, Burleigh, Richland, Cass, Traill, Nelson, Logan, McIntosh, and numerous other counties made landslide turn back to the fundamentals of constitutional government.

The anti-red flag law carried and will soon be a state law, in spite of the socialist leaders, who have infested our state capital.

The State Sheriff's law was defeated.

The absent voters' law was defeated.

The smelting committee law was defeated.

There is much to rejoice over, and there is much to celebrate as a victory.

Now, therefore, a meeting of anti-socialists of the state of North Dakota is called to assemble at the Spiritwood Lake Pavilion at Spiritwood Lake, in Stutsman county, North Dakota, on July 31st, 1920, at 10 o'clock a. m.

This is to include all delegates to the 1920 North Dakota anti-socialist convention, regardless of political affiliations, and all true lovers of the American form of government.

The red flag of anarchy will be buried, and the funeral sermon preached.

The Stars and Stripes raised, and its glories proclaimed.

The State Sheriff's law, the smelting committee law, the absent voter's law, the wilfully obnoxious laws of the last session of the Legislature, weighted with millions, will be drowned in the center of old Spiritwood.

Special invitation is extended to all ministers of the Gospel, editors, teachers, and men and women of every class to attend the convention and join in the celebration.

New Laws to be Initiated

New laws governing the State Bank.

New laws governing the State superintendent of public instruction.

New laws governing and controlling the I. W. W. in North Dakota.

New laws governing the industrial commission.

New laws governing the mills and elevators.

New laws governing the bureau of labor and compensation, and many other laws needed in North Dakota are to be initiated.

Addresses by leading men of the state will be given, and an organization for the complete overthrow of socialism in North Dakota will be perfected.

Therefore, let everyone come. Bring basket lunches, enjoy the day and evening in boating, fishing, singing and dancing and speaking.

Come by train, or auto.

Wimbledon, Courtenay and Kenal are tributary on the Soo line. Clementsville is tributary on the Midland-Continental. Jamestown and Spiritwood are accessible on the N. P. Ry. Pingree, Buchanan and Edmunds are tributary on the James town and Devils Lake branch. Send word at once that you are coming and of the number you will bring.

Very respectfully,

OSCAR J. SEILER.

Of Committee on Arrangements

Jamestown, N. D., July 28, 1920.

Notice to Coal Dealers.

Bids are requested to furnish 1000 tons, more or less, best screened lump lignite coal delivered as required in the bins of the several city public schools, during years 1920 and 1921, inclusive and subject to State North Dakota analysis. Right reserved to reject any or all bids. Bids to be opened at special meeting of Board of High School building Tuesday, July 27, 1920.

By order of Board of Education,

RICHARD PENNWARDEN.

POVERTY FORCES MOTHER TO SELL CHILD FOR \$250

Advertises Daughter for Sale on Account of Struggle in Life

New York, July 28.—For sale—Young widow with part with lovely two and one-half-year old girl, Irish parentage. Two hundred dollars—absolutely necessary as mother in poor health.

That is the whole story. Katherine McNulty, a pretty, dark haired 29 year old mother, said today when questioned about the advertisement inserted in papers here.

Many bids had been received for the curly, fair haired Margaret, who played around the tiny, clean room. Brave at first the little mother was loathe to give up her child when time for parting came, and so far has refused all offers.

The mother's story was one of a long struggle against poverty and illness. Her husband died three years ago. She struggled bravely to care for her two children Martin and Margaret and seemed succeeding until last spring when she was taken ill.

REGULATION OF WATER POWER IS SUBJECT OF ACT

To Provide for Administration of New Power Legislation Passed

DEVELOPMENT OF POWER

Washington, July 28.—Regulations of the administration of the Federal act opening up the country's vast waterpower resources to private development are now being drafted. As soon as they are completed the Waterpower commission, composed of the Secretaries of War, Interior and Agriculture, will hold hearings on them.

The commission, of which Secretary Baker has been appointed chairman by President Wilson, will hold its first meeting immediately upon Secretary Payne's return from Alaska about August 6. The hearings on the regulations will be pushed as speedily as possible so that the waterpower legislation, which has been ten years in the making, can be put into effect without undue delay.

The tentative regulations are being drawn up by a special committee of the War, Interior and Agricultural departments. It is composed of Major General Enoch H. Crowder, representing the war department; O. C. Merrill, waterpower expert in the forestry service, who has been designated executive secretary of the commission; and H. A. Stabler, of the interior department.

Members of the committee say the regulations will be extensive and that they probably will be announced in series, with open hearings on each group before they are made final. Those relating to form and condition of application for survey permit or licenses will be first announced. The most difficult problem involved in drawing up the regulations, members of the committee say, is that of establishing a uniform system of accounting for licenses as required by the act.

Under the Waterpower Bill the commission is empowered to issue licenses for a period not exceeding 50 years. The licenses will pay to the government reasonable annual charges in an amount to be fixed by the commission. Upon the expiration of any license the government, if two years' notice in writing has been given by the commission, will have the right to take over and operate any waterpower development after payment of the net investment of the licensee in the project or projects taken, not to exceed the fair value of the property plus such reasonable damages, if any, to property of the licensee as may be caused by the severance therefrom of property taken.

In cases where such notice has not been given the government also will have the right to take over upon mutual agreement with the licensee any property developed under the terms of the bill subject to the payment of the net investment.

Save Money—Put Goodyear Tires on Your Small Car

Avoid disappointment with tires made to be sold at sensationally cheap prices by using Goodyear Tires built to deliver maximum mileage at minimum cost.

The high relative value built into Goodyear Tires of the 30 x 3-, 30 x 3 1/2- and 31 x 4- inch sizes, results from the application of Goodyear experience and care to their manufacture in the world's largest tire factory devoted to these sizes.

Such facts explain why more cars, using these sizes, were factory-equipped last year with Goodyear Tires than with any other kind.

If you drive a Ford, Chevrolet, Maxwell or Dort, take advantage of the opportunity to enjoy true Goodyear mileage and economy; equip your car with Goodyear Tires and Heavy Tourist Tubes at our nearest Service Station.

30 x 3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread,	\$23.50	Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? 30x3 1/2 size \$4.50 in waterproof bag
30 x 3 1/2 Goodyear Single-Cure Fabric,	\$21.50

ARMS OF CHINA ARE OPENED TO TRADE WITH U. S.

Labor Commissioner Tells of Opportunities There for This Nation

NATION ALREADY AWAKE

America Has Already Won the Goodwill of People, He Declares

New York, July 28.—That China is destined to become an important factor in world affairs was the keynote of an address recently made to the members of the Advertising club of New York by Dr. Thivi Hsieh, Chinese Labor commissioner to the United States, who arrived here recently. He particularly emphasized that the idea of the unchanging East is now obsolete.

"Trade must be mutually advantageous in order to be desirable," said Dr. Hsieh, who in many quarters both here and abroad is referred to as "the Roosevelt of China."

"Now that the pendulum is swinging from the Atlantic to the Pacific, the success of any enterprise in China is dependent upon the intelligent, friendly and bona fide cooperation of the Chinese and Americans. You must get in direct touch with those Chinese whom other foreigners have missed and whom they cannot approach. Introduction through Chinese Chambers of Commerce, leading Chinese and modern Chinese banks are the best medium through which you will find the willingness of the Chinese to oblige the well-meaning Americans."

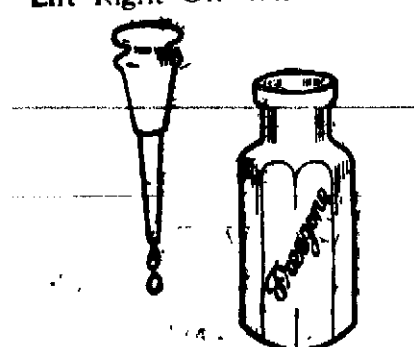

Chinese Workers Better Off
"When you try to interest the Chi-

"CORNS"

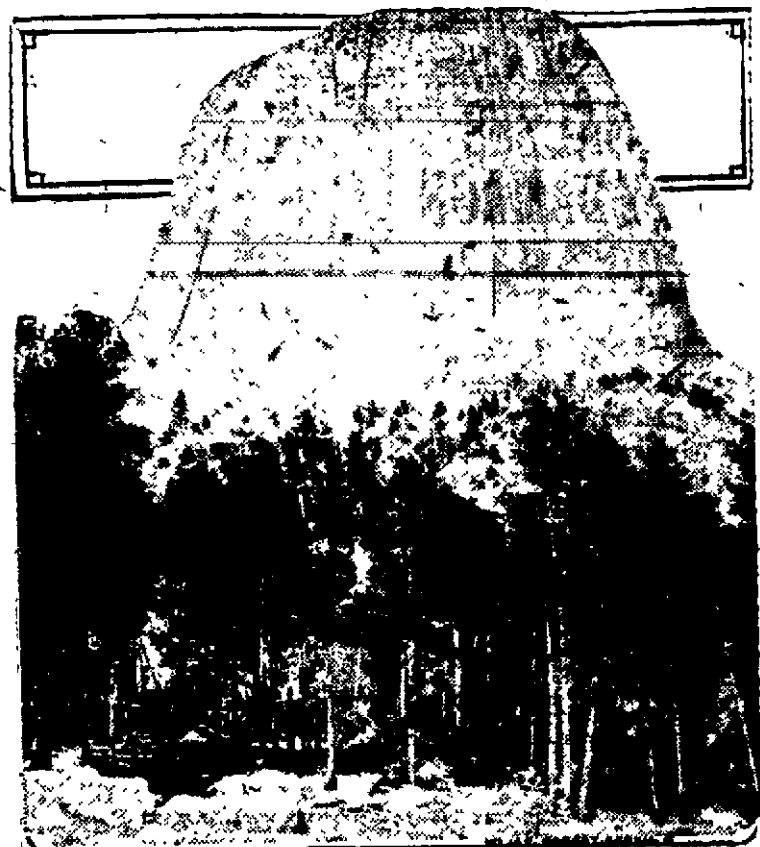

Lift Right Off Without Pain

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn. Instantly that corn stops hurting, then shortly it's right off with safety. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

DEVILS TOWER, FAMOUS SPOT IN WYOMING, DEFIES SCALING

Mountain climbing, pole vaulting, wire-walking and even steeple-chasing, a hazardous and difficult of attainment as they may be, are eclipsed by attempts of scaling Devil's Tower, as shown in this photograph. Records thus far accord distinction to only two persons as having climbed nature's wonderful monument as situated in southeastern Wyoming, their skillful efforts having been buoyed by cash prizes and unmistakable plaudits of the public. The rock formation is comprised of irregular fragments of granite, limestone, sandstone, quartzite, purplish rhyolite, slate or schist, black shale, flint and coarse pegmatite. The towerlike form, raising its head upward from one of the ridges of Belle Fourche River, is nearly circular, and is about 100 feet in diameter at the top. Its sides are nearly vertical, and the tower rears itself skyward to an altitude of 517 feet or 600 feet above the sandstone platform which constitutes its base. Its height above the river, a short distance east of its base, is a little less than 1250 feet.

ness in matters they should be put on solid, quiet, sincere, honest and businesslike statements, which often impresses the Chinese more than our recent incidents where any amount of well worded and smartly dressed bluff has ignominiously failed. Purely American systems forced upon China are not probably workable. You should compromise to at least adapt yourselves to the methods employed in China. China is not merely awakening but she is already awake.

"Trade in China is booming to such an extent that there is a great influx of British and American capital. Labor and living costs have increased 60 per cent owing to the war and China is not altogether a cheap place to live, but the workers are better off than before."

"Industrial activity has received a great impetus also as the result of the release from private hoards and secret hiding places of enormous sums of money by individuals in China, which have been deposited in foreign and native banks. Immense amounts of capital are thus available for productive purposes. Several factories, such as soap making and mat and paper mills, flour mills and cotton mills have rapidly grown—the last with showing dividends in their business up to 27 1/2 per cent."

Points to Opportunities
"America should take advantage of the extensive American exhibits of their manufactured goods, particularly in machinery, steel finish goods, rivets, copper ware, hardware and electrical apparatus, at the 1922 exhibition planned for by the Chinese government to take place at the Peking temple of Heaven, which will be open to all nations. China has set aside \$3,000,000 for the expense of the exhibition."

"By American advantages I mean that you have already advocated the direct cables between America and China, the wireless facilities to be established and particularly because you have succeeded in building the merchant marine which we hope to have cooperate with us. Now that the nations of Europe are unable to produce, your prospects are limitless. You have also won the good will of the people of China with the Seattle gateway, which the Chinese believe opens the future for American trade with the Pacific. You are bound to make a very successful beginning in the land which is not unknown to you."

hibition planned for by the Chinese government to take place at the Peking temple of Heaven, which will be open to all nations. China has set aside \$3,000,000 for the expense of the exhibition."

MONEY DRIVE ORDERED NOW BY HEAD OF LEAGUE

Workers Have Orders to Get the Cash and Name Those Who Refuse

NEED POSTDATED CHECKS

Fargo, N. D., July 28. Details of the Nonpartisan league leaders' plan for raising money for the fall campaign were received here today. The instructions were prepared by Townley or his assistants and show the "crew workers" how to approach the farmers and appeal for money with which to carry on the campaign. Implicit instructions are given township league workers as to how to raise the money. Stress is laid on the necessity of "getting the cash." Workers are instructed to carry checks on all banks in their districts. If the farmer is not able to make a cash subscription, the worker is advised to take his postdated check, but not dated after Nov. 1.

A vital point of the order says is that all persons who refuse to subscribe shall be reported to headquarters, along with at least one reason as to why they refuse to support the league.

The Order
Extracts from the complete orders follow:

"Organization Crews: Get at least four influential league members in each car. Get a book of checks from your local banks. Use the form checks provided by the league as little as possible."

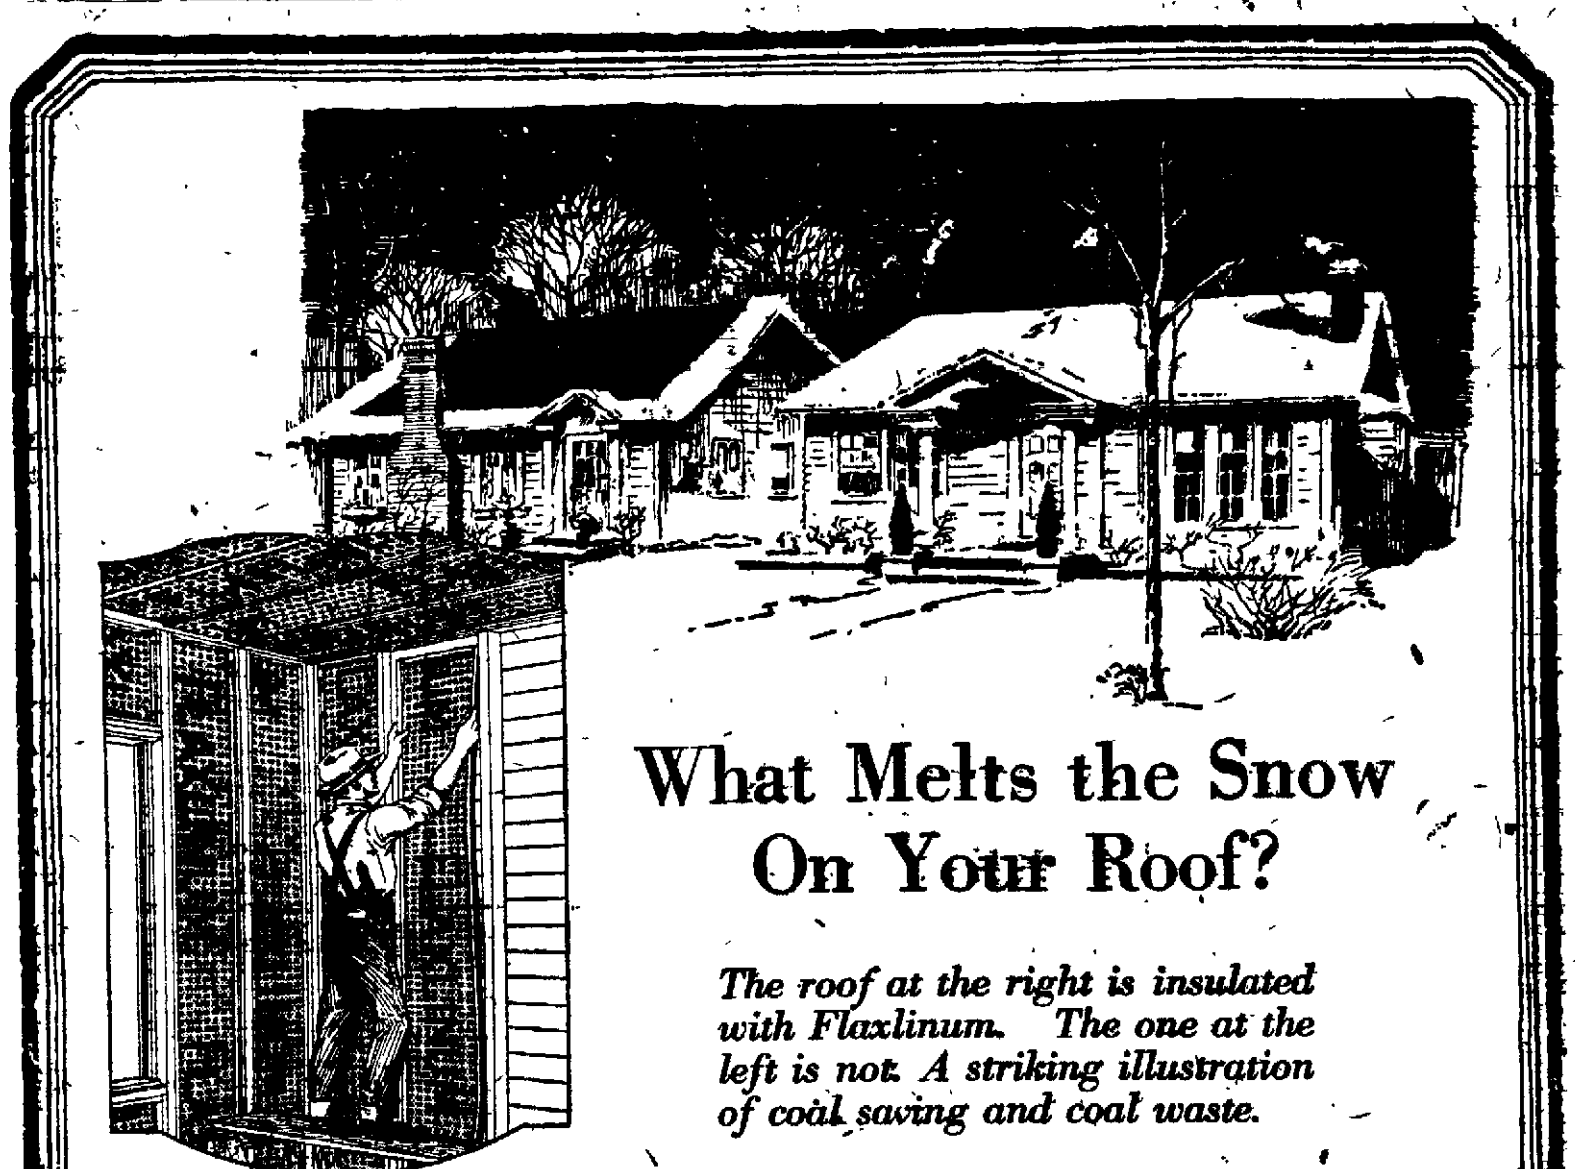

"Accept cash or cash checks in payment of memberships. Encourage every man to give you a check. Your enemies fight with cash—not with postdated checks. Make all checks payable to the captain of your crew."

On a separate slip of paper write the names and addresses of all men who refuse to join the league, giving one reason for their refusal. This is very important and should not be neglected."

"League members pay \$18 for each 2-year election period. Some may say because they paid their membership fee at the precinct meeting last winter or later, that their membership is paid for 2 years from that date. This is not the correct understanding. League memberships are for the 2-year election periods."

"Accept cash for memberships as far as possible. The 10¢ A's don't accept postdated checks. They fight with cash. The men who pay cash are more likely to stick and work than the men who give postdated checks."

Use checks put out by banks up on which the check is drawn. Post dated checks are given by members though they do not ordinarily keep an account in the bank but with the understanding that when the check is due they will place the

What Melts the Snow On Your Roof?

The roof at the right is insulated with Flaxlinum. The one at the left is not. A striking illustration of coal saving and coal waste.

FLAXLINUM

Keeps the House Warm in Winter—Cool in Summer—Saves 1-3 of Coal Bill

THE melting of the snow on your roof may seem an unimportant matter. But when you realize that it has a direct connection with your coal pile, it takes on a serious aspect.

If the sun melted the snow on your roof in winter, it would melt the snow evenly. It wouldn't leave a fringe over the eaves as shown in the house at left.

It is the heat that escapes through the roof that does the melting. And the heat doesn't only escape when there is snow to melt. It is going through the roof every hour and every day.

Notice the snow on the roof of the house on the right. The snow hasn't melted there because the roof is insulated with Flaxlinum. The Flaxlinum prevents the escape of the heat.

Flaxlinum is an insulating material for the walls and roof of a house. It keeps the cold out and holds the heat in. Consequently you have a warm, comfortable house no matter how cold the weather. Another result, quite naturally, follows. It does not require so much coal to heat a house insulated with Flaxlinum. Flaxlinum users say it saves 30 to 40 per cent of their coal bills, a saving that soon pays for the Flaxlinum.

FLAXLINUM INSULATING CO., St. Paul, Minn.

(Formerly known as Northern Insulating Co.)

It's Cheaper to Build a Warm House than to Heat a Cold One

In summer the Flaxlinum works the other way round. It stops the heat from getting into your house and makes it 10 to 15 degrees cooler.

Nothing new about Flaxlinum. It has been used for nine years in the coldest parts of the country, and every Flaxlinum user is a Flaxlinum enthusiast.

No special construction is necessary to use Flaxlinum. It comes flanged to fit between the studding in the side walls and in flat sheets for roof insulation. A layer of Flaxlinum one-half inch thick is equivalent in heat and cold resistance to thirty thicknesses of building paper, or to four solid inches of back plaster. For side wall we recommend half-inch and for roof three-quarters or one-inch Flaxlinum.

Flaxlinum Keyboard gives you the insulating value of Flaxlinum in a durable, wood-lath stucco base.

Flaxlinum products are sold by leading building material dealers everywhere. They are specified by architects and endorsed by contractors. If you do not know the name of a Flaxlinum dealer in your vicinity, write us.

Free samples and booklets on request. In writing, please state the kind of building you are interested in.

money in the bank to pay the check. It is better to not make the checks payable to the Nonpartisan League, but to make them payable to one or more members of the crew. The checks made payable to members of the crew and endorsed by them

are not so easily identified by the bankers and so it is more difficult to many of the bankers to interfere with the farmers paying the check. If members giving postdated checks can be persuaded to pay one or more dollars in cash, making the postdated

check 15, 27, or something less than \$18 makes the checks still more difficult of identification as league membership checks and makes it harder for the bankers to interfere with their payment.

Summer Cleanliness By the Pound

It's good to bathe your clothes as frequently as you bathe your body—it's the true secret of health, coolness, and comfort.

And it's just such bodily well-being and clothes cleanliness that we sell by the pound.

The modern laundry service we offer, you see, is based on a pound rate that's reasonable indeed.

You'll wonder, we're sure, why you have permitted yourself to cling so long to mussy washdays in the home, once you've given this service of ours a real trial.

Won't you call us up and let us tell you about it? Or if you like just phone us your address, our driver will willingly stop in and give you full details about this truly modern washway.

Remember our Dry Cleaning Department. All work done nicely combines efficiency with economy.

CAPITAL LAUNDRY CO.

NEW TWIST ON TRUNK MURDER

New York, July 29.—A twist was given today to New York's mysterious trunk murder, the police announced they had discovered a marked similarity between the handwriting of Edward Leroy, sought in connection with the murder of his wife, whose body was found here in a trunk shipped from Detroit, and that of the mysterious "Poulvour," who disappeared after the slaying here last August of Cecil Landon, an Oregon soldier.

HALF OF MINERS IN INDIANA OUT

Indianapolis, July 29. Reports received from Indiana mine fields today indicated that at least half of the miners in the state are still idle, as a result of the strike of "day men," which has spread into this state from Illinois. Some authorities said that 75 per cent of the state mines were closed. There was little change in the Terre Haute district today. A few more mines were idle, operators reported. There was no further attempt toward a settlement following the meeting held by local unions late yesterday at which they all voted to stay out and strike.

CITY NEWS

Motor to Des Moines
A. W. Hardy, of Des Moines, Ind., motored here to visit his daughter, Mrs. J. C. Taylor, of Avenue A, and today Mrs. Taylor joined her father on a motor trip to Des Moines. Mrs. Taylor will return home in about five weeks.

Returns from Visit
Miss Loretta Eupring, who has been visiting at Fargo and in Minnesota and Wisconsin during the past two weeks, will return to her home in Bismarck the latter part of this week or early next week.

Large Number at Tea
The regular weekly tea was given at the Country club Wednesday afternoon. The attendance yesterday was larger than at any previous tea given by the club. The club house was artistically decorated with flowers and those who attended report a very enjoyable afternoon.

Visits Braddock
B. E. Hitchcock, deputy collector of federal taxes, left today for Braddock, he will complete his work in that section in time to return Friday night.

Back From Vacation
Miss Katherine McGarvey has returned from her vacation.

SICK WOMEN HEAR ME

You Can Be Free from Pain as I Am, if You Do as I Did.

Harrington, Me.—"I suffered with backache, pains through my hips and such a bearing down feeling that I could not stand on my feet. I also had other distressing symptoms. At times I had to give up work. I tried a number of remedies but Lydia E. Pinkham's Vegetable Compound did me more good than anything else. I am regular, do not suffer the pains I used to, keep house and do all the work. I recommend your medicine to all who suffer as I did and you may use my letter as you like."—Mrs. MINNIE MITCHELL, Harrington, Me.

There are many women who suffer as Mrs. Mitchell did and who are being benefited by this great medicine every day. It has helped thousands of women who have been troubled with displacements, inflammation, ulceration, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration. Lydia E. Pinkham's Vegetable Compound contains no narcotics or harmful drugs. It is made from extracts of roots and herbs and is a safe medium for women. If you need special advice write Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

Blueberries!

Mrs. Careful Housewife, reduce your high cost of Blueberries by purchasing them direct. We are the largest operators in blueberries in U. S. and ship fresh packed berries every day during the season, direct to consumer, by express, eliminating all middle profits.

Blueberries are the only fruit in the market that does not require sugar, neither do they shrink when canning. Sixteen quarts of berries make sixteen quarts of canned fruit. Season will be short and crop will be light, so order quick and not be disappointed. Quality this season best on record. Price \$4.75 per full 16 quart case, f. o. b. Needah, Wis. Do not ship by parcel post. Order a few cases today of the finest fruit on the market.

Address all orders to
L. G. WILLIAMS CO.
Needah, Wis.

NEW BONNET IS WITH US—IT IS KNOWN AS THE TEMPERAMENTAL HAT

BY CORA MOORE, New York's Fashion Authority.
New York, July 27.—Everywhere at the fashionable teas, dining, and dancing—one sees adorable costume hats. Some of them are large, occasionally there is one of medium size, but the majority are small.

This Rawak model was designed for Miss Roberta Arnold, of "Adam and Eve", not only to suit her features, but as Mrs. Rawak explains, her temperament.

It is all of dull gold lace trimmed with golden brown velvet and a gold flower with transparent foliage.

G. A. R. MEETING ON SEPT. 19-25
Columbus, Ohio, July 29.—September 19-25 are the dates set for the national encampment of the Grand Army of the Republic to be held at Indianapolis. It was announced here today by Adjutant-General O'Neill.

Wing Man Here
Alex Hill, manager of the Farmer's Elevator at Wing, was in the city on business yesterday. He was accompanied by his son and daughter.

Entertain for Daughter
Last evening Mrs. Frank Paris entertained at a prettily appointed seven o'clock dinner. The affair was in the form of an announcement of the approaching marriage of her daughter, Florence, to Mr. Paul Cook of this city. Sixteen intimate friends were present. A color scheme of pink and white was carried out in the dining room and living room. The wedding will take place some time in August.

Hospital News
Charles Main, of Dawson; William Becker, of Youngtown; Alvin Saylor, of Underwood; Mrs. O. Burgess and baby of Wibaux, Mont.; Mrs. John Springer, of Kelso, Wash.; and Fred Orner, from Canada, were discharged from the Bismarck Hospital.

Oh Boy! Real Dance. Patterson Hall, Monday, Aug. 2nd. Metropolitan Novelty Orchestra.

Who were the famous Dalton gang? Ask Dad, he knows. See them tonight at the Bismarck Theatre.

COAL OPERATORS MEET TOMORROW
St. Louis, July 29.—Thomas M. Brewster, chairman of the coal operators scale committee, today called a meeting of operators in the central competitive field to consider the coal situation as a result of the miners' strike. The meeting will be held tomorrow in Chicago.

WORLD LEAGUE MEETS JULY 30
San Sebastian, Spain, July 29.—All preparations for the eighth meeting of the league of nations council which opens here July 30, have been completed. Some of those who will attend it are already here or due to arrive later today or tomorrow.

FLOUR TUMBLES IN MILL CITY
Minneapolis, Minn., July 29. Flour dropped again today here, the drop being 10 to 15 cents. Family patent flour, in 95-pound cotton sacks, was quoted at \$13.25 to \$13.45 a barrel.

MURDERER GETS LIFE SENTENCE
Manchester, Vt., July 29. Byron Pettibone was today found guilty of murder in the second degree in the poisoning of his wife at Bennington, Vermont, on April 6.

The jury has been out since yesterday afternoon. He was sentenced to life imprisonment.

LEONIDAS

LEONIDAS was a Spartan hero who earned a large bronze monument by holding the pass of Thermopylae with 300 men and a slingshot.

Sparta was a small, terrible country about the size of a Florida town site, but it was never stepped on with any success. The inhabitants lived on cayenne pepper and red beefsteak and practiced shooting at a mark eight hours a day. One time Xerxes, king of Persia, decided to annex Sparta, and after rounding up a neat little army of 2,000,000 men he headed for the Grecian archipelago, which was about in the same place it is now.

Xerxes did not get far before he ran into the pass of Thermopylae, which was a short cut between the mountains wide enough to allow two

Defying the Persian Army in Some of the Rudest Greek Adjectives Ever Used.

thin men to pass without being telegraphed. Here Xerxes found Leonidas drawn up in battle array, defying the whole Persian army in some of the rudest Greek adjectives ever used.

Xerxes took the affair as a joke until Leonidas had spitted a few thousand Persian husbands on his trusty sword, when he decided to surround Leonidas. When the Spartan hero discovered this, he delivered an eloquent address to his men and charged the entire Persian army, which filled him so full of arrows that he had to be pin-fathered before being removed to the family residence.

Leonidas' name at once became a household word, and autographs and kodak pictures of the deceased were eagerly sought after. His death aroused so much indignation that the Spartans rose up and threw Xerxes across the Hellespont with chains written all over his profile. Leonidas did not die in vain, as he had furnished the impassioned high school graduate with some of the most living eloquence and vivid rhetoric ever uncorked from an opera house stage. (Copyright.)

MILITANT MARY
This is the month when Nature sends her whispers down the BREEZE And draws us from our offices to FIELDS AND BROOKS AND TREES!
—B. Fitzhugh.

The United States national debt has risen from \$11 for each inhabitant in 1913 to \$225 at present.

The total supply of sugar for the United States available this year is estimated at 4,742,853 tons.

WORLD'S COSTLIEST SUBSTANCE

Elder Brewster Cave Up Much When He Abandoned His Home for a Great Principle.
Gone is the ancient pear tree, and no trace remains of the mulberry tree planted by Cardinal Wolsey, under the welcome shade of which Sir Edwin Sandys sat in the long summer days of 1577 at Stroudly Manor, but Pilgrims in England in 1920 need not neglect to raise their hats to the memory of Elder Brewster at his one-time home, because special arrangements have been made for escorting parties to the banquets of Pilgrim Fathers during the centenary year. All the Fathers made great sacrifices, but one will be tempted to think that William Brewster made perhaps more than most when one sees the ruins of his palatial home he left. Traces of the most still exist, and some of the great carved beams can be found in stables and cowsheds nearby. The size of the house can be realized when it is remembered that it was large enough to shelter Margaret Tudor and her entire retinue on her royal procession to Scotland—Christian Science Monitor.

Since the beginning of the war, 2,000,000 pounds of radium have been exported from the United States, exceeding the imports by about \$17,000,000.

The new Elitza presents tomorrow Norma Talmadge in her newest play, "The Woman Gives." That Miss Talmadge is the most popular star in pictures has been established without question in popularity contests. Her portrayal of the model in "The Woman Gives" will delight her millions of admirers.

WATTS IS GIVEN 24 DAYS IN JAIL

Defrauded Hotel Man of Small Amount on Transportation Advanced

Justice C. W. Casselman gave Edward Watts a sentence of 24 days in the county jail yesterday. Watts was found guilty of fraud in securing advancement of transportation from a local hotel man, and then not working it out. In making the sentence the justice stated that the 16 days which Watts had already spent in jail should be counted on the sentence of 24 days, leaving him eight days longer to serve.

CROPS IN GOOD SHAPE IN S. D.

Pierre, S. D., July 29.—Crop conditions in the central part of the state were never better for this time of the year. Predictions of a heavy yield of barley and rye are being made. The flax crop is the best in the history of the state, no better crop ever approached the harvest stage, farmers asserted.

Corn is making rapid headway, and hay is a heavy crop in all sections of the state. Some difficulty is being found in hiring men for the hay crop harvest.

CAR SHORTAGE MEET TOMORROW

St. Paul, Minn., July 29. Action for the relief of the car shortage through out the northwest will be taken at Fargo tomorrow when representatives of Minnesota and North and South Dakota meet, there in conference which comes as a result of the hearing held in the capital here last week.

Minnesota will be represented by the state railroad and warehouse commissioners.

RUNS LOTTERY

GENEVA. Tsing, a Chinese student in a university here, won \$2000 on Spion Kop, winner of the English derby, with a system all of his own. He wrote the names of the horses on paper slips, dropped 'em in a hat and fished out one. That one was Spion Kop and Tsing hastened to make his bet.

NOTICE to the FARMERS and the PUBLIC IN GENERAL

I wish to call attention to the public and the farmers' trade that I have opened a General Merchandise Store at the corner of 9th and Sweet Streets, and across the street from the Farmers' Creamery. This location will be easily reached when the farmers bring in their cream and other supplies to market. In addition to carrying a full line of groceries, I will have a well selected stock of General Merchandise, including Clothing, Mackinaws, Shoes, Dry Goods, Piece Goods, Men's and Children's Clothing, Ladies' and Misses' Ready-to-Wear Garments, Ladies' and Children's Hats, Men's Hats, Caps, Overalls, and too many other items of goods to mention.

I have been in the general merchandise business at Coal Harbor, in McLean county, for the past eight years and there is no doubt you have done business with me at that point. I have also been a farmer myself and farmed for ten years twelve miles northeast of Wilton. I mention this to show the farmers that I know their every need and can give them the things most suitable for their requirements.

I want to impress upon the farmers that when they come to my store they can bring along their families and make my store their home and headquarters, for I want them to feel at home in every particular.

I will give to the farmer trade a discount of 5% on all cash purchases, as this will enable them to defray expenses for their time.

Just call at my store and get acquainted in the meantime even if you do not make any purchases of goods.

My store is now open for business and you are most cordially invited to look over my stock and get prices.

I will have my advertisement appearing in this paper from time to time and I impress upon you to look over my prices.

Morris Zvorist, Prop.

New York.—This shateen shell like tube that Miss Helen C. Campbell of the Radio Chemical Corporation holds, contains a tiny pellet about the size of a dose of quinine. It's worth \$20,000. You guessed it—radium! It's the world's most precious substance. The four tubes shown hold one gram—about 1.26th of an ounce—and are worth \$120,000. New York state has bought two and one-quarter grams (the largest shipment ever made) to use in the fight against cancer and skin diseases. The tubes are of lead and the radium contained in a tiny silver capsule. The lead keeps part of the rays of radium from escaping. They make had burn.

EX-EMPEROR HAS CREATED SMALL COURT AT DOORN

Guard Makes Mingling With Dutch Impossible; His House—Like Germany—

LIVE QUIET, COUNTRY LIFE

Doorn, Holland, July 28.—The former German Emperor William, while professing a desire to lead at Doorn the quiet life of a country gentleman, has nevertheless created a little court around him somewhat larger than that which he had at Amerongen and Dutch newspapers have already begun calling Doorn "The Little Potsdam."

The allies' demand upon Holland to guard the former emperor closely have made it impossible for William to mingle with the Dutch country gentry who have estates about Doorn and the house where he is said to expect to spend his remaining days is just like a little bit of Germany.

Strict military order prevails outside the House of Doorn, where passers-by must not be too curious. Within the discipline is Prussian. William's only associates are German. His entire staff, including approximately 40 servants, are German, with one exception, the village baker, a Dutchman, is called in now and then to trim his hair or beard.

When at Amerongen, William went frequently to Doorn by automobile, but now, he is seldom seen outside the wire fence of his estate, which villagers call his "40 hectare cage."

Forty hectares are about 80 acres.

The few times he has been out, he has paid visits to his former host, Count Bismarck, at Amerongen. Now and then the former crown prince or others of William's sons have been permitted to visit the exile, largely because of the illness of their mother, but, from day to day, William seldom sees any new faces only his daily associates.

The few times he has been out, he has paid visits to his former host, Count Bismarck, at Amerongen. Now and then the former crown prince or others of William's sons have been permitted to visit the exile, largely because of the illness of their mother, but, from day to day, William seldom sees any new faces only his daily associates.

NEW TEMPLE OF THE GODS

In the ordinary sense, no part of the United States properly can be called unexplored. The new Temple of the Gods, in southern Utah, is a discovery as far as the average tourist is concerned, though by no means is it unexplored or "new" territory. A bare 17 miles to the west runs the well-traveled state highway from Salt Lake City to the Grand canyon. An old trail branches off from the road between Panguitch and Tropic, in Garfield county.

In the distance is Table Cliff plateau, source of the Escalante river; nearer, the broad amphitheater of the Paria valley; at its feet the New Temple itself, a veritable sunken garden, about one by three miles, of exquisite daintiness and beauty. Within its tortuous walls of marl stand obelisks and towers, castles and fortresses, impressionistic statuary and giant sculptures, kaleidoscopic in their coloring and framed by the tufted yellow pines and the red manzanita.

The startling color changes and lighting effects of this great geological stage are, indeed, its most extraordinary feature. In the shifting rays of sun and cloud, the tall, slender shafts and ornamental turrets gleam white, glow suddenly to a cherry heat and suddenly cool to purple black—I. C. Alter in Popular Mechanics Magazine

In France a man with a \$50,000 income is taxed \$21,925 against a tax of \$7147 on a similar American income.

WORKMEN DREDGING EAST RIVER FACE DEATH BY DROWNING OR EXPLOSION OF DYNAMITE CARGO

Work When Completed Will Give New York Another Deep Waterway to Sea—Thrills in Work are Described

New York, July 29.—Death by drowning or dynamite—these are the chief dangers facing the men who are dredging the East River to Long Island Sound that New York may have another deep-sea passage to the Atlantic.

How this undertaking, which will require 15 to 20 years and an expenditure of \$55,000,000 to \$75,000,000 is being carried on was told here today by officials of the dredging company, which is doing the work.

"Most of the work must be done during the slack water period at the change of tides and, as there is generally from 500 to 1,000 pounds of dynamite aboard each drill boat the danger of being rammed by passing craft and sent to the bottom is complicated with the possibility of being blown into the air," one official said.

"In Hell Gate, which is 480 feet by 350 feet, from eight to ten months will be required to complete this task. A drill boat is being warped across it in parallel paths 30 feet apart, drilling holes into which from 100 to 150 pounds of dynamite is packed and exploded. A clipper dredge, following the drill boat, loads the blasted rock into scoops for dumping into holes 75 feet deep or more in the river. This leveling of the river bottom removes the source of eddies, smoothing the current."

"Pot Rock, another reef in Hell Gate, will be destroyed next. Because of treacherous currents for which it is responsible Pot Rock is known as the wickedest spot in American waters."

"The longest slack water period registered in Hell Gate during the best 40 years was 23 minutes. It is within that slack period that drilling points must be located, charges planted and fired and the position of the plant changed. Divers on this work are generally unable to spend more than 15 minutes under water at a time, so that they work but half an hour in a 24-hour day."

"As a precaution against being rammed by passing craft the Navy Department and Customs House officials have warned operators and owners of vessels to keep a safe distance from dredging plants. For non-compliance with this warning 85 captains were arraigned recently within a period of ten days. Many were suspended for from 10 days to 6 months."

Ready to Jump.

"When the collision signal is sounded on one of the dredging vessels, each of the dynamite crew, wearing life belts, grabs a box of the explosive and stands by to jump overboard."

"The project of dredging the East River to the Sound was first undertaken 40 years ago to provide New York harbor with an entrance which would not require continuous dredging."

Like Ambrose Channel, where five government dredges are constantly removing the infiltrating sands, Flood Rock, in Hell Gate, was then removed and some lesser work accomplished before the appropriation was exhausted.

When Flood Rock was blasted a charge of 100,000 pounds of dynamite was fired, the official said. Launched on the river a mile away were lifted three feet out of the water, but no damage resulted.

"Grasshoppers throughout Burlington county are on the decline now," states G. W. Gustafson, county agent.

"Generally in the county, the grasshoppers have not done as much damage as they did last year. In spots they have done considerable damage, but not generally."

"They have done as much damage now as they are going to do to the grain. Flax may still be damaged by them and it is advisable to continue poisoning in fields where there is flax."

The River Niger, in Africa, is five miles wide at the mouth.

FACE DEATH BY DROWNING OR EXPLOSION OF DYNAMITE CARGO

Work When Completed Will Give New York Another Deep Waterway to Sea—Thrills in Work are Described

New York, July 29.—Death by drowning or dynamite—these are the chief dangers facing the men who are dredging the East River to Long Island Sound that New York may have another deep-sea passage to the Atlantic.

How this undertaking, which will require 15 to 20 years and an expenditure of \$55,000,000 to \$75,000,000 is being carried on was told here today by officials of the dredging company, which is doing the work.

"Most of the work must be done during the slack water period at the change of tides and, as there is generally from 500 to 1,000 pounds of dynamite aboard each drill boat the danger of being rammed by passing craft and sent to the bottom is complicated with the possibility of being blown into the air," one official said.

"In Hell Gate, which is 480 feet by 350 feet, from eight to ten months will be required to complete this task. A drill boat is being warped across it in parallel paths 30 feet apart, drilling holes into which from 100 to 150 pounds of dynamite is packed and exploded. A clipper dredge, following the drill boat, loads the blasted rock into scoops for dumping into holes 75 feet deep or more in the river. This leveling of the river bottom removes the source of eddies, smoothing the current."

"Pot Rock, another reef in Hell Gate, will be destroyed next. Because of treacherous currents for which it is responsible Pot Rock is known as the wickedest spot in American waters."

"The longest slack water period registered in Hell Gate during the best 40 years was 23 minutes. It is within that slack period that drilling points must be located, charges planted and fired and the position of the plant changed. Divers on this work are generally unable to spend more than 15 minutes under water at a time, so that they work but half an hour in a 24-hour day."

"As a precaution against being rammed by passing craft the Navy Department and Customs House officials have warned operators and owners of vessels to keep a safe distance from dredging plants. For non-compliance with this warning 85 captains were arraigned recently within a period of ten days. Many were suspended for from 10 days to 6 months."

Ready to Jump.

"When the collision signal is sounded on one of the dredging vessels, each of the dynamite crew, wearing life belts, grabs a box of the explosive and stands by to jump overboard."

"The project of dredging the East River to the Sound was first undertaken 40 years ago to provide New York harbor with an entrance which would not require continuous dredging."

Like Ambrose Channel, where five government dredges are constantly removing the infiltrating sands, Flood Rock, in Hell Gate, was then removed and some lesser work accomplished before the appropriation was exhausted.

When Flood Rock was blasted a charge of 100,000 pounds of dynamite was fired, the official said. Launched on the river a mile away were lifted three feet out of the water, but no damage resulted.

"Grasshoppers throughout Burlington county are on the decline now," states G. W. Gustafson, county agent.

"Generally in the county, the grasshoppers have not done as much damage as they did last year. In spots they have done considerable damage, but not generally."

"They have done as much damage now as they are going to do to the grain. Flax may still be damaged by them and it is advisable to continue poisoning in fields where there is flax."

The River Niger, in Africa, is five miles wide at the mouth.

THE DOUBLE SQUEEZE

BY HENRY BEACH NEEDHAM

Illustrated by SEVEN MYERS
Copyright, by Doubleday Page & Co.

SYNOPSIS

PART I—His star pitcher definitely out of the game, through illness, Tris Ford, manager of the famous baseball team, the Giants-Killers, secures Barney Larkip, brilliant twirler, but eccentric and disgraced, and after a nerve-shattering session the Giants-Killers win the pennant in the American league. Gamblers, without apparent reason, bet heavily against the Giants-Killers in the world's championship games with the "Phillies." Winston Shute, king of second base, and Ford's main hope at the bat, is kidnapped before the first game.

PART II—Shute, awakening from super on steamer, miles out from New York, learns he was brought on board apparently intoxicated, under the name of Winston James. He is on his way to Italy. A wireless to Ford is answered, apparently by the manager, and declares Shute is with the team and playing. Shute accepts the inevitable. He becomes acquainted with Miss Riley, fellow passenger, and something more than friendship develops. At Genoa Italian secret service officers search the ship. Miss Riley confesses to Shute that they are after her, and that her name is Leonard.

"The captain of the Colonia was getting messages asking him if a person answering her description was aboard the boat—she traveled under the name of Riley, remember I told you. Some time she was getting wireless messages from some friend ashore warning her. As I understand it, her wireless were in code—but she didn't have the right code with her; so couldn't read 'em, and had to ask for translations in plain English. Of course then the wireless operator spotted her. But Jarrod Mansel didn't give her away to a soul on the ship—not even to the captain."

"What's more—he didn't take advantage of his inside information; he didn't try to work on her sympathies because he was shuffling her. This Ford gave assurance of fair dealing in regard to the wireless operator—for Miss Leonard's sake! Apparently he asked about the young lady; where she was. He was told that Imogen Leonard was detained in the best hotel at Genoa, which was surrounded by guards, and that Win Shute wouldn't have left her alone if he hadn't insisted that he take her mother to Rome to see the American ambassador. This mission had made it possible for Win to play the cable game, drawing him out to leave the ship until arrival at Naples."

The ambassador of the United States of America accented to Italy welcomed Tris Ford with a broad, somewhat big-boy-and-I grin. Ford could guess it was the symbol of accomplishment.

"Jake's doing!" exclaimed John Bismarck. "Jarrod Mansel has confessed and incriminated that scoundrel Stinger. I think a lot of work and pull to get Mansel rehabilitated as an operator and assigned to the Colonia. The wireless company had kept tabs on him—know he was drinking and slipping down grade—and they weren't keen to have him back at the key. Jake Stinger had to give that part of the plot his personal attention. He dealt directly with Mansel. So you'll get your man higher up, all right."

"Will Mansel testify against Jake Stinger?" asked Ford joyously.

"No doubt of it—that is, if you promise him immunity."

"We'll do more than that," said Ford.

EVENTS AND GOSSIP FOR THE FANS

SEVERAL GAMES SCHEDULED FOR BASEBALL CLUB

Mandan Probably Comes Here Next Week—McKenzie Plays Friday Evening

BROWN AND HURLEY GONE

Mandan's last baseball team probably will be seen in action at capital park again next week.

At the conclusion of a conference of managers of the Bismarck and Mandan teams it was tentatively arranged that Mandan would play here next Tuesday or Wednesday evening.

The proposition to play a series of six games, two Sunday games and four week-day games, between Mandan and the local club is under consideration by the Mandan manager Friday evening of this week the local club will play McKenzie at capital park at 6:15 or 6:30 p. m. Next Tuesday evening Sterling will play here. The team goes to Wilton Sunday.

Harper, third baseman and chicken, second baseman, will stick regularly with the team. Brown and Hurley have been released.

Frankenhoff is now playing alongside of a man he used to play against when Franky was with Virginia in the Northern league. Chicken was pitching for Superior.

The papers had to haul Chicken's picture out about every four days," says Franky. "He nearly always was sure of a win and a new strike-out record or some other feature."

Harper played with Saskatoon, in the western Canada league, and is rated as one of the best infielders in the northwest.

Both Chicken and Harper played with the fast Brinsmade team this season until it disbanded.

TENNIS SHARKS GET CHANCE AT TOURNAMENT

State Contest at Minot, August 17, Will be Open to Local Net Experts

FIRST MEET SINCE 1916

Tennis experts from this section will have an opportunity of meeting the best players from all over the state at the seventeenth annual tennis tournament of the North Dakota State Tennis association, which will be held at Minot, beginning Tuesday, August 17.

The second annual Northern Great Plains open championship matches will also be included in the program and will be played off during the same days.

The first event of the tournament is the Northern Great Plains Championship men's singles, which will be open to all comers.

The second event is the Northern Great Plains Championship men's doubles, which is also open to all comers.

The third event is the state championship, men's singles, open only to residents of North Dakota. A challenge cup goes to the winner of this series.

The fourth event is the state championship, men's doubles, open to residents of the state only. A challenge cup goes with this match also.

The fifth event is the junior state championship, boys' singles. This is open to boys living in the state, under 16 years of age.

The sixth match is the state championship, women's singles, open to all comers. A challenge cup goes to the winner.

The seventh event is the state championship women's doubles, is open to all comers. A challenge cup goes with the match.

The eighth and last event is the state championship, mixed doubles. Open to all comers, men and women.

Details of the Series

The tennis courts on which the matches will be played are located in Riverside park. An entrance fee of \$1 for each player for each event will be collected in advance.

Entries should be made before Aug. 16, to Gay S. Woodledge, Minot, N. D. Entry fees should accompany the entries.

The rules laid down by the U. S. National Lawn Tennis association will govern the tournament.

Mr. N. B. Ellsworth, of Williston, N. D., will referee the matches.

Play in the state events will start on Aug. 17. The open events will start Aug. 18.

All matches will consist of the best two out of three sets, except the semi-finals and finals in the men's open and North Dakota state championship which will be the best three out of five sets.

Expect Many Entries

There was no tournament held in either 1917 or 1918, owing to war conditions and the committee in charge of the tournament expects a large turnout.

George Russ of the Bismarck Country club, said this morning that no definite arrangements had been made for any local players to attend the tournament, but thought it possible that a number from here would take part in the matches.

A new type of protectionism known as frontier control has come into existence in Europe.

BROTHERS JIMMIE AND STEVE NOW STAR IN BIG LEAGUES

By DEAN SNYDER.

"You know my big brother, Sylves. Well, he's..."

Yeah! But you ought to see some of the kid brothers kicking up their heels in the big orchards, too.

That's the combination when the Nats and Indians play. The O'Neills, Steve and Jimmy, look up against each other on these occasions—that is, they are on opposite rosters.

Hand of Fate.

In reality accidents have kept them from actually playing against one another so far this season. Jimmy was on the hospital list both times the Indians visited Washington and when the Nats came to Cleveland Steve was at Minot because of his wife's serious illness.

You'll remember back in 1916 the case of Harry and Stanley Coveleskie. They were, on opposing teams. Stan refused to pitch against his brother. Well, the O'Neill brothers do not carry that feeling and will play against each other if accidents do not continue to bob up during the last half of the season.

Steve has been with Cleveland since 1912 and Jimmy just came up to the big show last fall.

Like Different.

The family resemblance is strong enough that most any one would pick them for brothers.

The Minooka, Pa., brothers hold the bat the same way. Each takes his grip down near the knob. They're both hitting over 300. Line drives feature most of their woodwork.

But the resemblance ends at that. Steve is a catcher, an unusually slow runner, his legs are big and stocky. It would be about an even bet if Truck Hannah, the Yankees' slow-foot catcher, and Steve were to purr off in the century sprint.

Jimmy is a short-top. He is as fleet as a rabbit. His body is trim and agile. He covers a lot of ground and can stoop up the ball on the dead run.

The baby of the Minooka family has been going to school a lot in baseball even though he only hit the big tent last fall. Jimmy has been a professional since 1914.

Other big brother and little brother combinations in the majors are Carson Bigbee of the Pirates and Lyle Bigbee of the Athletics.

Then there's the famous Johnston brothers, James, Harle at Brooklyn and Wheeler "Doc" of the Cleveland Indians. But there are in different circuits and there is little chance of them playing against each other like the O'Neills.

Sundries Pair.

In Cleveland there are a couple of brothers playing on the sandlots who look so much alike that one can be substituted for the other and get away with it.

They are the Schardt boys, Bill and Carl. They are pitchers. If one of them gets wobbly in the box the manager can slip the fresher twirler in for a few innings while his brother rests.

Brother stuff in baseball is an interesting thing. It gives the fans something to talk about and affords an intimate basis of comparison.

The present example of the O'Neills, Bigbee and Johnstons shows there is something to the old story about the kid brother who attains the heights of his big brother "Sylves," the exalted one, he used to brag about with so much enthusiasm.

men. They got salary boosts. They aren't playing their regular game.

JOHNSON STARTS JAIL TRAINING

Joliet, Ill., July 29.—Jack Johnson, former heavyweight champion, today started training for his prospective one year in prison.

Johnson today faced a 30-day stay in the county jail here because of Federal Judge Carpenter's illness and refusal of other federal judges in Chicago to open the case of white slavery pending against him.

"I'm sorry to hear the judge is sick—yes, indeed, very sorry," the negro said today, as he prepared to abide here.

NEW RECORD SET IN GRAND CIRCUIT

Columbus, July 29.—One world's record was reduced yesterday when Rife Grenada, the champion three year old pacing gelding, while winning the American association trotting horse breeders purse of \$2,500 for three year olds, lowered the second heat in 2:04, lowering his own world's record a second and a half. He was a prohibitive favorite and barred in the betting.

FAMOUS RACING FARM KEPT UP

Paris, July 29.—It is understood that the late William K. Vanderbilt's stud farm at Lequensy and his training establishment at St. Louis de Poissy will be continued. William Duke will remain the trainer, while Frank O'Neill will continue as premier jockey in the Vanderbilt stable.

The horses will resume racing Aug. 3, when Courland is entered for the Prix des Reves at Vichy.

WHO RAN OUT?

NEW ORLEANS—Big posters announced a Burke-Tunney fight for Jersey City. Tunney turned up with a bad hand. Burke couldn't wait for it to mend, and came home. It was just a poor break in circumstances.

ROBBIE'S ASSETS

BROOKLYN—When it comes to handling pitchers Uncle Wilbert Robinson of Flatbush is in a class with Pat Moran and Kid Gleason. Grimes, Marquard, Marmah and Pfeffer make the Robins pennant favorites.

MCCRATH'S GRIT

BOSTON—Matt McGrath, the holder of the world's record for throwing the 56 pound weight, barely made the Olympic team. Grit alone put him over, for he has a broken rib.

LIVE CORPSE

PORTLAND—Portland fans are ready to show that the living game is a pretty live corpse. The report circulated in southern California that the sport in dying here has caused a storm of protest.

REDS CARELESS

CINCINNATI—Baseball experts here attribute the uncertainty of the Reds standing this year to carelessness. Last year they were wonder-

NATIONAL LEAGUE

New York, July 29.—New York won a 14-inning game from St. Louis yesterday, 6 to 5. The winning run was scored by Burns, who singled, went to second on Bancroft's sacrifice and completed the circuit on Young's hit to center. The Cardinals drove Douglas from the mound in the eighth scoring three runs. In the Giants half of the latter inning, Burns and Bancroft were passed and scored on Frisch's triple. Kelly's single sent Frisch over with the tying run. Tony pitched only half the last inning and hits credit for the victory.

Score: N. Y. 6, St. Louis 5. 1st 9:00. New York 100 030 000 01—6 13 1. Batteries: Sahup, Goodwin, Sherdel and Clemens; Douglas, Benton, Toney and Snyder.

Battles Won in Ninth

Philadelphia, July 29.—Ninth inning rallies by the losing team marked both games of yesterday's double-header.

Score—First Game: R. H. E. Pittsburgh 000 200 130—6 9 0. Philadelphia 000 000 003—3 6 2. Batteries: Cooper and Haefner; Smith and Whitt.

Score—Second Game: R. H. E. Pittsburgh 000 000 013—4 14 1. Philadelphia 110 110 105—5 10 2. Batteries: Adams, Blake and Haefner; Lee, Causey, Gallia and Traeger.

Braves, Cubs Split Bill

Boston, July 29.—Boston and Chicago divided a double-header yesterday. Boston winning the first game, 8 to 4, and losing the second, 8 to 2. Vaughn was removed from the opening game but came back in the second. Boston players made eight errors in the second game.

Score—First Game: R. H. E. Chicago 002 200 000—4 8 2. Boston 000 000 000—0 6 1. Batteries: Vaughn and Daly; Scott and O'Neill.

Score—Second Game: R. H. E. Chicago 000 021 050—3 11 1. Boston 100 090 010—2 10 8. Batteries: Vaughn and Daly; Scott and O'Neill.

Grimes Wins for Dodgers

Brooklyn, July 29.—Brooklyn batted three Cincinnati pitchers for 18 hits and evaded the series winning 9 to 0. Grimes pitched shutout ball, made three hits, scored three runs and helped to drive in two more.

Score: R. H. E. Brooklyn 000 000 000—0 15 2. Cincinnati 002 043 002—9 18 1. Batteries: Ring, Bransie, Lowe and Wingo; Grimes and Miller.

American League

Blank Boston

Cleveland, July 29.—Cleveland defeated Boston easily, 8 to 0. Bagby was in splendid form and was brilliantly supported, particularly by Jamie.

Score: R. H. E. Cleveland 000 000 000—0 13 0. Boston 002 000 011—3 6 3. Batteries: Harris, Keefe and Perkins; Cioetto and Schalk.

Shanks Beats Senators

Detroit, July 29.—Hippie Schacht hard and timely, Detroit won from Washington, 6 to 4.

Score: R. H. E. Washington 001 000 030—4 10 0. Detroit 002 112 208—6 11 1. Batteries: Schacht, Acosta and Gharaff; Shanks and Stange.

American Association

Errors Fatal

Louisville, July 29.—Louisville errors proved the decisive factor in St. Paul's 9 to 7 victory in a batting test yesterday in which hitting homers was even. With the bases all in the ninth, Hall struck out Tincup.

Score: R. H. E. St. Paul 000 520 011—9 13 0. Louisville 000 200 041—7 13 4. Batteries: Griner, Hall and Hargrave; Koob, Wright and Meyer.

Mud Hens Take One

Toledo, July 29.—In an indifferent contest here Toledo won from Kansas City, 5 to 2.

Score: R. H. E. Kansas City 010 000 001—2 10 2. Toledo 000 070 002—5 7 3. Batteries: Songer, Letter and Brock; Middleton and McNell.

Divide Doubleheader

Columbus, July 29.—Minneapolis and Columbus divided a double-header here yesterday.

Score—First Game: R. H. E. Minneapolis 000 010 001—2 4 0. Columbus 000 000 000—0 3 0. Batteries: Schaus and Mayer; Berger and Hartley.

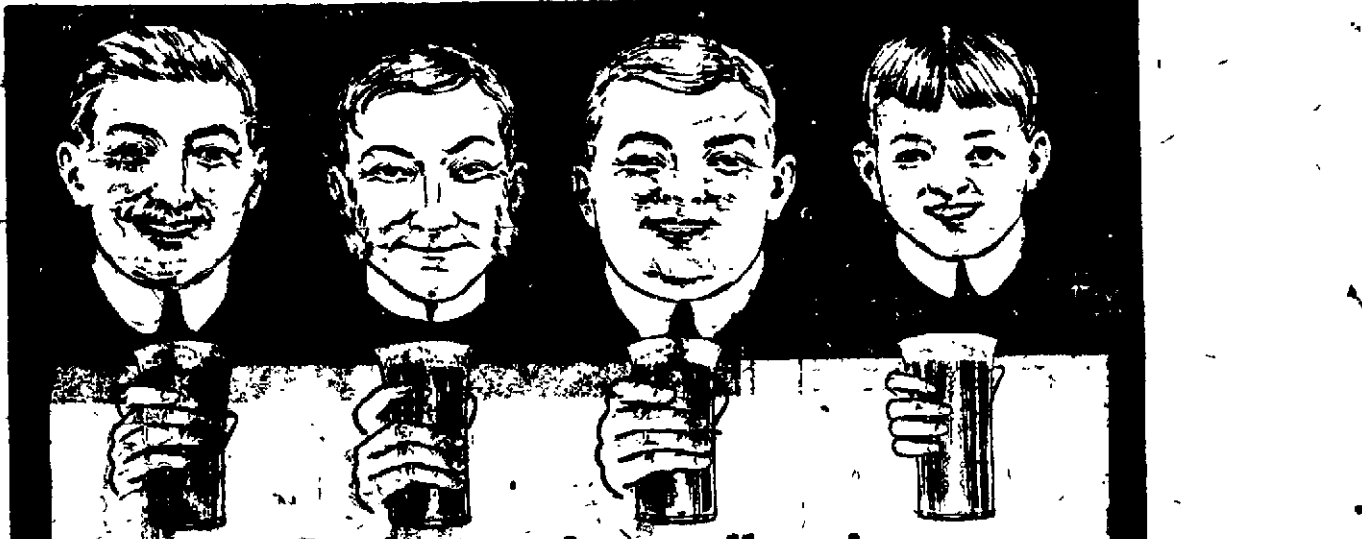

Score—Second Game: R. H. E. Minneapolis 000 000 000—0 7 1. Columbus 020 005 002—7 10 1. Batteries: Robertson, Schwab, Lowdermilk and Mayer; Owens, Danforth and Kelly.

Two Straight for Brewers

Indianapolis, July 29.—Milwaukee hammered Caver in the late innings and made it two straight from Indianapolis, the score being 7 to 1.

Score: R. H. E. Milwaukee 010 000 213—7 11 3. Indianapolis 000 000 010—1 7 3. Batteries: McWeeny and Ulrich; Caver and Henline.

The total loss of savings taken out of the country is estimated at a minimum of \$2000 for each emigrant.

It cheers them all up!

Brazilla

There's happiness, good cheer and a smiling exhilaration in every glass of BRAZILLA.

Everybody's drinking it because it is a "cheer-up" drink. Staid business men, good fellows, pretty girls, children, working people and everyone else who likes to feel happy, good natured, pleasantly stimulated, all drink BRAZILLA.

It is a delicious thirst quencher. Fragrant with tropical fruits, herbs and spices.

Try a glass at the soda fountain. Also bottled for home use. The syrup in pint bottles for home use is to be had at most drug stores and groceries. Is equally delicious with plain water as with carbonated water. Try a bottle.

THE BRAZILLA COMPANY
Minneapolis, Minn.

What puts the "kick" in Brazilla?

What gives BRAZILLA its cheery, exhilarating effect? IT IS NOT A DRUG. It is something NEW and different. Try it and see if you can recognize this mysterious new ingredient. We will give a 16-oz. bottle of BRAZILLA Syrup to the first 50 people who send us the correct name of this ingredient with a 50-word description of its qualities.

AT ALL SODA FOUNTAINS

FACTORY CALLS FOR EMPLOYEES—“PEN” NEEDS ‘EM TO MAKE TWINE

If you are looking for a nice summer job why not take a trip to the penitentiary and help the boys make binder twine? Transportation, food, clothing, amusement, housing, baths, hair-cuts, and what not furnished free by the state of North Dakota.

The penitentiary binder twine plant is a busy place just now. All hands, that can be spared, are busy making twine for the coming harvest.

In fact there is a slight shortage of labor. Either the demand for twine is exceptionally large or else the number of "employees" is below standard.

About 60 men are working in the twine plant now and around 10,000 pounds of twine are manufactured each day. The prison made twine is sold at a standard price of 13 1/2 cents a pound.

The plant is operated during the summer and fall only, and during these seasons operations are speeded up as much as possible. The prospect of a large harvest this year has materially increased the demand for twine.

MARKETS

CHICAGO LIVESTOCK

Chicago, July 29.—Cattle receipts, 12,000. Steady to strong on choice steers. Early top, \$16.86. Bulk \$16.00 to \$16.50. Medium cows uneven, \$5.75 to \$6.00. Bologna bulls, \$5.25 to \$7.25. Butcher bulls druggery, packers steady. Hog receipts, 21,000. Uneven, 25 to 50 cents higher. Top \$16.00. Bulk \$15.00 to \$16.00. Pigs, \$14.55 to \$15.00.

Sheep receipts, 22,000; slow. First sales 35 cents lower. Top native lambs, \$14.75. Bulk, \$13.00 to \$14.00. Sheep steady. Top native ewes, \$3.25.

AT LAST, RELIEF FROM RHEUMATISM

Now is An Excellent Time to Get Rid of Its Tortures.

Rheumatism is more than a mere local disorder confined to the locality of the painful parts. It cannot be rubbed away, because it is a deep-seated disease that has its source in the blood supply. The millions of little disease germs that cause the disease must be reached and eliminated from the blood before real relief can be had.

S. S. S. has been successfully used for Rheumatism for more than fifty years. It is the most thorough and reliable blood purifier because it searches out and eliminates the disease germs which infect the blood.

For free expert medical advice regarding your own case, write fully to Chief Medical Adviser, must be reached and eliminated Swift Laboratory, Atlanta.
